

Planter Box Specifications

Yellow juniper, redwood, black locust or cedar wood for framing. Height of the planter box is not to exceed 16 inches.

Small wood stakes, green garden stakes or bamboo stakes with brown/black garden netting or black 16 gauge wire mesh can be used to keep the deer and other critters out.

Places to look for materials and/or pre-built boxes:

Home Depot

Lowes

Jerry's

Redwood Northwest--prebuilt

Sustainable Northwest Wood--for the yellow juniper, prebuilt

Planter boxes should be located on your property whenever possible. The HOA will consider special requests for placing planter boxes on common area property.

Approval is needed so please submit the plan, location and design for your planter boxes to the architecture committee. Include dimensions with your plans.
